

# SmallRig

## Extended Quick Release Plate

for DJI RS RS 2 RS 3 RS 3 Pro RS 4 RS 4 Pro RS 5  
(Compatible with Manfrotto Specifications)

Operating Instruction

SmallRig Extended Quick Release Plate for DJI RS 2 / Ronin-S / RS 3 / RS 3 Pro / RS 4 / RS 4 Pro / RS 5 3031 is designed to mount professional cameras like Canon C100/200/300, RED, Komodo on the gimbal. The extended plate adds 40mm on the plate compared to the original camera plate. You can add Counterweight Kit 3125 to the rear to balance the stabilizer, attach Lens Support 2850 to protect the lens mount, and Focus Motor Component 2851 to connect the DJI focus motor when the lens is mounted on a large camera body or a camera with battery grip. In addition, a 1/4"-20 threaded hole on the bottom can be used for adding the Counterweight AAW2284 or AAW2285 for balance.

## Safety Guidelines

### 1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### 2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### 3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### 4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

### 5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

## In the Box

|                     |     |
|---------------------|-----|
| Quick Release Plate | × 1 |
| Allen Wrench        | × 1 |

# Integrated Rubber Cushions to Protect Camera

A 1/4"-20 threaded hole on the bottom, counterweight can be attached.

 Please note:

The counterweight is  
NOT included

# Compatible with Counterweight Kit 3125 for Balance

 Please note:

The Clamp 3125 is  
NOT Included.

## More Elaborate Design

Features Scales for  
Precise Positioning

The design is perfectly  
for your gimbal  
for better adjustment.

# Package Includes

1x Quick Release Plate

## Product Parameters

**Brand:**  
SmallRig

**Product Dimension:**  
168 x 49.5 x 12mm

**Material(s):**  
Aluminum Alloy,  
Stainless Steel

**ID:**  
3031

**Color:**  
Black

**Net Weight:**  
115g
