When unlocking, press the Unlock Buttons on both sides and pull out the Phone Clip firmly to release.

Adaptation for Mobile Phones

When adapting to different models of mobile phones, in order to ensure that the mobile phone buttons are not blocked and the phone is always in the center of the cage, you can use the Allen Wrench supplied with the product to loosen the Adjustment Screw and slide the clamping column left and right until the mobile phone is centered and the Phone Clip does not cover the mobile phone buttons.
